

Just say it and you're done!

Resolving the biggest challenge For enterprises using CRM – manual Data Entry. Using TALKSENSE simply replaces reporting with talking, Giving your organization more real time data and more efficiency. Installing and deploying TALKSENSE for Salesforce takes a few minutes.

Contextual Processing Engine

THE PAIN

60% of business data in big enterprise is lost, due to corporate bureaucracy and field force reluctance to report.

The way we communicate at work (through protocols, documents and forms) is stuck in the dark ages!

OUR SOLUTION

With TALKSENSE you can simply say: "what's my team's quarterly sales?" and we will take care of the rest:

Our easy to use, Salesforce compatible, hands free app simply makes life easier for both employees and management in big enterprise. find the right form and fill it, submit it to all necessary channels and report back to you – all at a blink of an eye.

GO-TO-MARKET OPPORTUNITY

As Covid19 made work from home the new norm – data loss is becoming more crucial, in this ever-growing CRM market.

Gartner value the Field Service Management (FSM) Market at 2.85 billion USD in 2019, and it is expected to reach 7.10 billion USD by 2026

Business model – monthly based, per user / month, SaaS.

OUR INNOVATIVE TECHNOLOGY

The TALKSENSE solution is easily implemented into any platform, supporting various industries, languages and accents, allowing users to make accurate & reliable voice reporting.

Unique features:

- NLP, Text Enhancement.
- Data Privacy by Design (GDPR, CCPA).
- Cross Segment / Language / Platform.
- Quick Implementation into any app.
- On Premise / Online Deployment.
- Improved productivity.

ABOUT US

We are a team of seasoned professionals from both voice and customer support side.

After long successful careers in big enterprise we have decided to take our expertise to the next level and create the solution for the problem we knew was the key to the industry's future. Amir, Nir and Michael all are committed to making work-life as easy, intuitive and efficient as sending a voice message.

WHAT HAVE WE ACHIEVED SO FAR?

We are currently working on perfecting TALKSENSE with our existing paying customers – already using our voice solution including: Boheringer Ingelheim (one of the world's top 20 Pharma corps), Partner – the largest OTT provider in Israel, ST engineering – a global transportation leader, THALES – a global leader in transportation ticketing vending machine, and are excited towards 4 more new up and coming co-operations!

OUR VISION

Outsmarting bureaucracy by getting big enterprises to really talk. Turning complex reports and tiring forms data entry to all stakeholders to easy to use as telling your phone to call someone – wherever you are and in real time.
